### **DETAILED ACTION**

This Office action is in response to Applicant's amendment and request for reconsideration filed on December 18, 2006. Claims 1-15 and 17-20 are presented for further examination. All independent claims have been amended.

#### ***Response to Arguments***

Applicant's amendments appear to have overcome the prior art of record however, the claims are not allowable in view of the 112 1<sup>st</sup> ¶ rejection set forth below.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. **Claims 1-15 and 17-20 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement.** The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular Applicant failed to disclose *a single request* including 1) at least one identifier each identifying a respective slave client computer AND 2) a locator corresponding to content on the server. Applicant clearly disclosed identifying the slave clients that are authorized to share a common browsing experience however, Applicant failed to identify even one slave client in conjunction with a webpage request (i.e. in a single request) (see inter

Art Unit: 2153

alia, Applicant's specification pg 11, line 29 – pg 12, line 10 and pg 12, line 29 – pg 13, line 7). Applicant first establishes a collaborative session and then later handles the shared web page requests without identifying each slave client in each web page request. Thus, Applicant clearly failed to describe the claimed invention in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

### *Conclusion*

2. The prior art made of record, in PTO-892 form, and not relied upon is considered pertinent to applicant's disclosure.
